Aseet Patel to Speak at AI Manufacturing 2022 Conference

Banner Witcoff's Aseet Patel will speak at the AI Manufacturing 2022 conference in Dallas on August 24 and 25.

Aseet's presentation, titled Using Patents to Bolster Competitive Advantage of Your AI Inventions in Manufacturing, will be held on August 25 at 11:30 AM (CT). His presentation will cover several best practices to identify which aspects of their AI manufacturing innovations are viable for patent protection, building a strong IP framework for manufacturing technologies to avoid landmines in the patent landscape, and more.

Aseet has focused his practice in AI and technology, authoring numerous articles on the subject such as this article on Industrial Internet of Things (IoT) patents.
