Banner Witcoff Sponsors Making Waves in the Ocean State: Innovation@Brown Showcase

Banner Witcoff is a proud sponsor of the Making Waves in the Ocean State: Innovation@Brown Showcase on Thursday, October 5, hosted by Brown Technology Innovations.

The Innovation@Brown Showcase celebrates the flourishing entrepreneurship and innovation in Rhode Island and provides a networking opportunity for investors, academic researchers, entrepreneurs, and regional leaders. The event will include a keynote address, a conversation with Rhode Island startups, an award ceremony recognizing recent groundbreaking inventions, a technology showcase, and opportunities to learn more about working with Brown and others leading the way in innovation.

You can read more about the event by clicking here.

About Brown Technology Innovations:

The mission of Brown Technology Innovations is to put Brown University's technology first to drive commercial outcomes that benefit the University and society. With its responsibilities to manage the university's patent portfolio, the Brown University technology transfer office, called Brown Technology Innovations is first and foremost focused on commercialization.
