# Justin Philpott Recognized in Sagacious IP's Green100 2024 Report

The 2024 Sagacious IP Green100 Report recognizes Banner Witcoff's Justin Philpott as one of the "Voices for a Green Future."

This report provides an analysis of patents focused on climate change mitigation, alongside a comprehensive scorecard and benchmark to measure the sustainability progress of countries, industries, and individual companies.

Justin has represented clients in patent matters to develop and protect inventions in fields such as solar power conversion and battery power conservation. He has also presented on topics such as how tech-driven organizations can innovate for a greener future. Passionate about the environment, Justin powers his home using 33 solar panels in a 10.2 kW solar power system, which also feeds the grid with excess energy.

Learn more about Justin's experience by clicking here, and view the full Sagacious IP Green100 Report here.
