# Kirk Sigmon Leads Guest Lecture at Purdue on AI and Machine Learning Law

On September 3, Kirk Sigmon will share practical strategies for navigating the rapidly changing law governing artificial intelligence and machine learning ("AI/ML") during a guest lecture at Purdue.

Kirk will educate students on the biggest legal issues impacting AI/ML right now, including recent court decisions regarding the use of training data, the evolving patentability of AI/ML-related inventions, and how various countries are grappling with AI/ML-related data privacy concerns.
