Making Teams More Productive Through Neurodiversity | Mercedes Meyer Participates in ACC Life Sciences Conference Panel

On Thursday, March 6, Shareholder Mercedes Meyer will participate as a panelist during the Association of Corporate Counsel (ACC) Life Sciences Conference.

The panel, Making Teams More Productive Through Neurodiversity, will explore how to recognize different forms of neurodiversity and how to ally to create an inclusive environment beneficial to everyone. Mercedes and her co-panelists will provide practical strategies that legal teams can adopt to accommodate neurodiverse individuals and allow them to thrive. The presentation will offer 1 hour of California “implicit bias” credit.
