North Shore Corporate IP Roundtable Presents Anatomy of Indemnification Provisions in Technology Agreements

May 2, 2025

The next North Shore Corporate IP Roundtable program will take place on May 2 in Northbrook, with a presentation focused on intellectual property indemnification.

Indemnification provisions are now commonly negotiated in technology agreements. But they are often boilerplate terms and often do not address the circumstances that arise that could implicate insemination issues. Our speakers, Dan Glitto (Zebra Technologies) and Binal Patel (Banner Witcoff) will discuss strategies for negotiating indemnification provisions. This CLE talk will discuss the key ways for effectively drafting these provisions to best address situations that may arise in the future.

Lunch will be provided, and an application for 1 hour of CLE credit will be sought in IL. Attendees must register in advance. To register or for more information on the North Shore or West Suburban Corporate IP Roundtable programs, email kmckinnon@bannerwitcoff.com or click here.

The North Shore Corporate IP Roundtable program was created to provide educational and networking opportunities for in-house corporate counsel. Due to its success, the firm-sponsored initiative was expanded to Chicago's west suburbs.
