David focuses on patent prosecution and litigation. Prior to his legal career, David gained extensive experience working as a design electrical engineer for an international semiconductor manufacturing equipment company. Spending four years in this role, he worked on the concept & feasibility team, focusing his design efforts on new heat control and robot control systems in addition to electrical safety systems.

David earned his JD at University of New Hampshire Franklin Pierce School of Law, graduating *summa cum laude* and receiving multiple graduation awards: The Franklin Pierce Center of Intellectual Property Award and the Patent Law and Practice award. During law school, David was consistently focused on furthering his experience and legal knowledge of intellectual property and patent law by completing patent law-focused course work and serving as Editor-in-Chief for Volume 64 of IDEA: The Law Review of the Franklin Pierce Center for Intellectual Property. He spent his final semester in law school interning at the U.S. Court of Appeals for the Federal Circuit under the Honorable Judge Jimmie V. Reyna. Before joining Banner Witcoff full-time, David was also a summer associate at the firm.

David received his B.S. in Electrical Engineering, graduating with distinction from Clarkson University. During his undergraduate career, he gained hands-on learning experience in the area of electronics and computer systems.
