

Kirk A. Sigmon He/Him/His

Attorney
Washington, DC
ksigmon@bannerwitcoff.com
Main: 202.824.3000
Fax: 202.824.3001

Kirk helps companies around the world tackle complex intellectual property challenges, from high-stakes patent prosecution and litigation to strategic portfolio development, cross-border licensing, and maximizing IP value.

Kirk began his legal career in Tokyo, and now regularly advises on U.S., Japanese, Korean, Chinese, and European IP matters. Kirk's practice involves a wide range of technologies, from cutting-edge artificial intelligence models and self-driving cars to video games, fashion, and children's toys. For example, Kirk has worked on major patent prosecution and enforcement disputes involving machine learning, natural language processing, networking and cybersecurity, cellular communications, virtual reality, self-driving cars, biotechnology, medical devices, military weapons systems, cryptocurrency, aerospace flight systems, video encoding, oil and gas engineering, optoelectronics, data storage, and more. Kirk is also the chair of the firm's IP Due Diligence Committee and the vice-chair of the Intellectual Property Owners Association Anti-Counterfeiting & Anti-Piracy Committee. Kirk speaks Japanese and is actively studying Korean.

In addition to his work at Banner, Kirk is part of a select graduate cohort at Dartmouth, where his research focuses on artificial intelligence, deep learning, machine vision, and Field Programmable Gate Arrays (FPGAs). Kirk is also a University of Hong Kong-certified FinTech professional, an IBM-certified Machine Learning Professional, a Google-certified cybersecurity professional, and a Government Blockchain Association-certified Blockchain Legal Specialist. A former Thomas Edison Fellow at George Mason University, Kirk's recent scholarly output includes a law review article on video game program code decompilations and copyright, a practitioner guide on prosecuting artificial intelligence patent applications, various book chapters on video game intellectual property protection, and a legal education course on trademark and patent prosecution ethics. Kirk is a frequent contributor to the firm's blog Patent Arcade, where he writes on video game intellectual property law. He also was selected for inclusion in The Best Lawyers: Ones to Watch in America® 2026 edition for patent law.

Kirk has also served as the chair of the firm's Pro Bono Committee for years. He has successfully represented a Guantanamo Bay detainee in military proceedings and victims of sexual violence in U-Visa proceedings. He also regularly prepares testamentary documents for indigent senior citizens and has represented numerous adults and minors in protective order and immigration proceedings.

Before joining Banner, in addition to his intellectual property practice, Kirk worked with clients in response to Department of Justice, Consumer Financial Protection Bureau, and Securities and Exchange Commission investigations that involved complex technical issues.

Outside of the law, Kirk is a competitive ballroom dancer and the head of a charity events organization in Washington, D.C., where he seeks to provide fundraising opportunities to local nonprofits and causes.
