

Mechanical Engineering

More than twenty Banner Witcoff attorneys have undergraduate degrees in mechanical engineering and many more have degrees and advanced degrees in related technologies. Most of our attorneys practicing in this area have real-world experience working at companies, to develop leading-edge systems and products. Our attorneys also include former patent examiners who worked at the U.S. Patent and Trademark Office in the mechanical areas, including automotive, transportation and power generation.

Our industry experience includes obtaining patents, negotiating sales and licenses and litigating issues involving patents and trade secrets. This experience includes but is not limited to aerospace, medical devices, laboratory and diagnostic equipment, sporting goods and recreational equipment, consumer products, apparel and footwear, textiles, manufacturing and industrial equipment, electrical connectors, sensors, automotive, environmental technologies, and satellite and communications systems.

Representative Mechanical Experience:

- Aerospace systems
