

Mattel

Spin Master Ltd. V. Mattel, Inc. No. 2:18-cv-03435, U.S. District Court for the Central District of California

Represented Mattel in a patent infringement case involving Mattel's Mecard line of transformable toys, as well as in three associated inter partes reviews. A favorable outcome for Mattel was reached through a settlement agreement in April 2019, about one year after the complaint was first filed, and following the institution of all three IPRs. The agreement fully resolved each matter and terminated inter partes review. Banner Witcoff also coordinated related litigations in Canada, Mexico, and Australia.
