Joshua Davenport Delivers Updates on AI/ChatGPT in Patent Prosecution

Banner Witcoff's Joshua Davenport will participate in an IPO Chat Channel Webinar to address major relevant developments in generative artificial intelligence, such as ChatGPT, as it relates to patent prosecution. The CLE webinar will take place on Tuesday, March 19 from 11 am – Noon ET.

Joshua and his co-panelists will also discuss recent takeaways from caselaw, developments in AI tools, and practice tips for attorneys looking to implement AI tools in their everyday work.

You can learn more and register for the webinar by clicking here.
